

Attend our
OPEN HOUSE

event on
November 28
from **5–7 PM**

At **Davis Aerospace & Maritime High School**, students are immersed in a rigorous curriculum that prepares them for college and successful careers.

With a focus on science, technology, engineering and math (STEM), Davis A&M provides a hands-on curriculum with real-world applications, including:

- ▶ visits to local airports to learn how to design, fix, or fly planes;
- ▶ lessons in navigating boats out on the water;
- ▶ internships at aeronautics and maritime companies;
- ▶ AP and honors courses;
- ▶ opportunities to earn industry-recognized credentials and professional certificates.

Through partnerships with PHASTAR, The Cleveland Airport System and Kent State University, students are connected to industry professionals from the US Coast Guard, Port of Cleveland, Ohio Aerospace Institute and many others.
